"How Compliments Pass," &c — The Dalles *Mountaineer* of yesterday, (Aug 30th) publishes a correspondence between a committee of citizens of the Dalles and Representative John R McBride, involving an invitation of the latter to dinner at the expense of the Dalles people, in consideration of his eminent services in "securing for them at the hands of the National Congress that legislation which their interests demand" The honorable Representative declines for want of time, and assures them "the wants and resources of our magnificent State are very imperfectly understood at Washington" We think the gentleman's assertion entitled to credence, if any one doubts it, let them read the action of Congress locating a Mint at the Dalles Mr McBride says in his declination, "hitherto your section had been almost entirely neglected, and I took pleasure in the promotion of measures for its development" We agree with him again, we would have agreed with him had he said that he had sought the promotion of the Dalles' interests in direct opposition to the expressed wishes of his constituents, and in violation of his more than implied promise To show why we would thus have agreed with him, we this morning publish in our columns the joint memorial and resolution passed by our last Legislature, of which John R McBride was a member, and in *favor of the passage of which* Mr McBride *voted as representative in the State Legislature to instruct* Mr. McBride *as representative in Congress* His duty to his constituents may have been discharged by his subsequent action in Congress, but we don't see it in that light."

A Serious Question for Copperheads.—While the rebel papers throughout Oregon are whining at the depreciated United States Legal Tenders, the high price of gold, and the "immense load of Government indebtedness," they seem to forget that the South is infinitely worse off Perhaps they consider this the best method of raising the credit of the South. But if they fail in the accomplishment of their darling project, how are they to realize anything for their pay when they get it? Confederate Notes are not worth a Yankee friction match per bushel without regard to the "denomination," and Jeff Davis, their employer, hasn't any on hand at that When Memminger, the Secretary of the rebel treasury, (?) went out of place, he left the Confederacy owing the troops $60 000,000. They certainly will be paid before Northern rebel newspapers We offer them a bit of consolation from the New Haven *Palladium*

There is a great complaint throughout the Davis Confederacy at the delay of the rebel Treasury Department in putting out the new issue of Confederate "money" The creditors of the Confederacy, and its employees, civil and military, are all short and can get no funds The Atlanta *Confederacy* says there is plenty of new money printed at Richmond, but the trouble is the Treasury clerks are all in the army, and there is no one to sign the notes. That is a very bad state of things but where are the one hundred and thirty note signing females whom Memminger sent off to Columbia, S C? If signatures were the only things locking the credit of the Confederacy need hardly have waited these months for their money. We suspect that if the truth were disclosed it would be found there is a far more serious trouble in the Confederate financial department than could be caused by its being short-handed of note signers

The High Prices.—The New York *Commercial Advertiser* shows that prices have advanced more in the last three years in this country than they did in Great Britain during over twenty years of the long periods of wars ending in 1815 A table of the prices of fifteen articles and kinds of labor taken at the Greenwich Hospital in 1790 and again in 1812, indicates an advance of 125 per cent. During this period the national debt had increased $2,200,000,000. Within the last three years our national debt has increased only $1,750,000,000, And yet a comparison of prices in the case of fifteen leading articles, three of them only being imported, shows that during the last thirty months prices have advanced on an average two hundred and twenty five per cent on normal rates It appears, moreover, that the major part of this advance has occurred during the present year, and indeed, within the last three months At nearly all times these general market prices have been considerably in advance of the price of gold At the present time the high price of produce is said to prevent its exportation, thus necessitating the transmission of more specie, so that produce is dragging up gold, instead of the reverse, as many have supposed

"Gold Quotations"—The questions is almost daily asked of us—"why do 't you give us the quotation of gold?" One of the principal reasons may be found in the fact that the quotations are so far from reliable that the agents for the transmission of intelligence over the telegraph wires, knowing the fictitious value placed upon gold in New York for the purpose of depreciating by these same "quotations," the currency of the country at remote points, will not transmit over the wires what they know to be false To illustrate The cashier of a bank in Hartford, Conn, recently went to New York to sell a quantity of gold for the benefit of sundry interested parties The honest gold brokers of Gotham, says the Hartford *Post*, were quoting gold at 235, and had it so bulletined in their office windows, but when the Hartford cashier planked down his little pile and told them they could have it, none of them would give over 210 Thus they were virtually stealing from the people one-twentieth of their entire possession in currency, by falsely depreciating greenbacks 5 per cent The gold quotations they gave was for the purpose of buying greenbacks, not gold These speculators are for the most part peace Democrats and if by this little game they impair the credit of the country they just so far help the rebellion They are doing it continually, and will the poor man desert his country and rob himself, to place the Government under their control?

The Mint Question.—Inasmuch as some of the interior papers, whose editors have not the fear of falsehood's penalty before them ever have intimated that none outside the city of Portland ever desired the location of a branch United State Mint at this point, we appen l below the memorial and resolution unanimously adopted by both the Senate and House of Representatives of the State of Oregon at the last biennial session. These interesting documents of reference are quoted from the 'Journal of the proceedings of the Senate, and the special Laws Resolutions and Memorials enacted during the seventh regular session Legislative Assembly of Oregon held at Salem, 1862 Asahel Bush, State Printer" It is an invaluable aid to short memories, and we would recommend our benighted cotemporaries and our acting Representative in Congress, to procure a copy The "Memorial" will be found on page 39 of 'Special Laws' and the "Resolution" on page 1 following Let it be remembered that our present Representative in Congress was a member of the last State Legislature, and *voted for the memorial and resolution quoted below* Our readers will scarcely be surprised, after reading these documents that the wants and resources of our magnificent State are very imperfectly understood at Washington but as we shall have more to say upon this subject, we leave it for the present with the following —

Memorial asking for the Establishment of an Assay Office and Branch Mint at Portland, Oregon

To the Honorable Senate and House of Representatives of the United States of America in Congress Assembled:

The Legislative Assembly of the State of Oregon, in regular session convened, would respectfully represent that, within the last two years, gold mines rich and extensive in their character, have been discovered in the interior of this State and the adjoining portions of Washington Territory The regular yield of these mines, though yet only partially developed, is estimated at not less than half a million dollars per week, and there is every reason to believe that when the early future shall more fully develop the vast mineral resources of the mining region, it will equal in extent and richness anything yet discovered upon the continent

Engaged in those mines are supposed to be not less than 50,000 men, and their numbers are being constantly swelled by large additions from the adjoining State of California, as well as by immigration from Pike's Peak and the States east of the Rocky Mountains. The main point from which supplies for the mining region referred to, are, and will continue to be drawn, is the city of Portland, in this State Purchases and shipments of Merchandise and machinery for working the mines, &c, will be made at that city, and bullion taken from them will be brought there for sale and transmission

Your memorialists would further represent that the Branch Mint situated at the city of San Francisco, California, is too distant for those engaged either in the business of mining or trading in the gold region of Oregon and Washington, referred to above, to enjoy any of its benefits, and such persons are compelled to bear the great delay and incur the damages of its transmission to San Francisco, of their bullion, or dispose of the same in the city of Portland at a great loss

In view of these facts, and fully impressed with the belief that the yield of these mines will be permanent, and augmented by demand, as an act of convenience to the thousands now engaged in extracting the untold wealth, the establishment of a Branch Mint and Assay Office, at the city of Portland, in the State of Oregon

Your memorialists would respectfully ask your honorable body to make suitable provision therefor

Adopted September 17, 1862

JOEL PADMER
Speaker House of Representatives
WILSON BOWLBY
President of the Senate

[H J R. No. 6.] Relative to a Branch Mint in Portland

Resolved that the House, the Senate concurring, Instruct our Senators and request our Representatives in Congress to procure the passage of a law establishing a Branch Mint at the city of Portland, to meet the wants of the large mining districts now being opened in this State, and in Washington Territory.

Adopted in House, October 11th.

JOEL PALMER,
Speaker House Representatives.

Adopted in Senate, October 12th

WILSON BOWLBY,
President of the Senate.

The New "Holy Alliance"—The London *Morning Post*, in a recent editorial on the question of the alleged Holy Alliance, observes that "nobody can follow the remarks made on the documents lately published without arriving at the conviction, which is by degrees becoming more firmly established abroad of their genuineness How could the Prussian Minister admit that he wrote that dispatch and yet expect to keep the peace? Of the two 'drills he chose the least, nor will it be the first time in the history of diplomacy that a statesman has denied a fact to avert the disaster of a war, for such a war as France might wage against Prussia upon the strength of these dispatches could not fail at the present moment to be most disastrous" The *Post* is perfectly prepared to enter with the Prussian Minister upon the contest of assertion and denial, and will not believe in the establishment of a permanent peace until the changes which may take place in Germany have received the sanction and approval of the Emperor Napoleon

How Sherman Tricked Johnston.—Recently Gen Sherman found the rebel forces opposite him retaining their artillery fire for several days, and no amount of artillery practice on our side sufficed to draw on the rebel gunners Sherman was of opinion that rebel artillery was there, but that Johnston or Ewell was tempting him to make an assault, and had secretly massed his guns to inflict a murderous repulse. How to discover where the rebel guns were placed was now the question All other efforts failing, Sherman at last uncovered the rebel batteries by the help of an ingenious practical joke The railroad track stretched past part of our front, and down close to the rebel line, which it skirted for some distance Sherman started a locomotive down the track at full speed, toward the right They heard its shrill shriek, saw it with amazement come tearing down towards their breastworks, and suspecting, they did not know what trick, at last, unable to hold in any longer, blazed away with their whole line of battleries at the mysterious monster That was all that Sherman wanted

Important Decision.—A man named Worser, a resident in Lehigh county, Pennsylvania, was recently drafted and paid commutation money He was again drafted on the 1st of June, and the district Provost Marshal decided that he was again liable to service Application having been made to Washington, Provost Marshal General Fry decided that the person's payment of commutation exempted him for three years and that the last payment made must be refunded

The British yacht *Deerhound*, which happened to be so opportunely near the *Alabama* during her fight with the *Kearsarge* and which rescued her commander, and at his earnest request took him into a British harbor of refuge, is owned by the firm of Frazer, Trenholm & Co of Liverpool, who are the rebel agents for that port, and she is thus almost as really rebel property as *the Alabama* herself It probably was not wholly accidental that she happened to be on the spot at that particular time

The rebels did not destroy the residence of Mr Francis P Blair at Silver Springs Maryland but they rifled it from cellar to garret, leaving nothing that they considered worth carrying off The residence of Postmaster General Blair only three hundred yards distant from his father's was razed to the ground He had completed the payment for it only a week before

Senator B Gratz Brown of Missouri headed the signers to the call for the Cleveland Convention He, however, did not attend it and most of his Missouri followers have come out for Lincoln Twenty six out of the thirty radical papers in that State support the Baltimore ticket and only four papers—three German and but one English—support Fremont

A Humane Law.—We publish below an act introduced in the Senate by Senator Conness of California and a law of the land which provides for the summary trial by the United District Courts of certain offences on the public lands Hitherto these cases have been left until the convening of a Grand Jury The operation of this delay has been to escape the offenders in most cases (such as the maltreatment of a sailor by a captain or a mate) upon bail, which he could easily give, while the complaining witness unable to give bonds for his appearance was left to be kept in jail until the time of trial It was manifestly wrong that an injured seaman should be lodged in jail to ensure his appearance as a witness while the offending captain remained at large upon bail in a small amount

An Act to provide for the summary trial of minor offences against the Laws of the United States

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it shall be lawful for the judge of any district court of the United States to hold a special session of said court at any time whether in term or vacation for the trial of minor offences against the Laws of the United States, as hereinafter provided

Sec 2 And be it further enacted That whenever a complaint shall be made against any master, officer or mariner of any ship or vessel belonging in whole or in part to any citizen or citizens of the United States of the commission of any offense against the laws of the United States made to the protection of persons or property engaged in commerce or navigation it shall be the duty of the district attorney to investigate the same and the general nature thereof and if in his opinion, the case is such as should be summarily tried under the provisions of this act he shall report the same to the district judge, and the judge shall forthwith, or as soon as the ordinary business of the court will permit, proceed to try the cause and for that purpose may, if necessary, hold a special meeting of the court

Sec 3 And be it further enacted That at such trial it shall not be necessary that the accused shall have been previously indicted, but a statement of complaint, verified by oath in writing, shall be presented to the court setting out the offence in such manner as shall enable to appraise the accused of the character of the offense complained of and to enable him to answer the complaint And the said complaint or statement shall be read to the accused when he may plead to or answer the same, or make a counter statement

Sec 4 And be it further enacted, That the said trial shall thereupon be proceeded with in a summary manner, and the cause shall be decided by the court, unless, at the time for pleading or answering the accused shall demand a jury, in which case the trial shall be upon the complaint and plea of not guilty

Sec 5 And be it further enacted, That it shall not be lawful for the court to sentence any person convicted on such a trial to any greater punishment than imprisonment in jail for one year, or to a fine exceeding $500, or both, in its discretion, in those cases where the laws of the United States authorize such imprisonment and fine

Sec 6 And be it further enacted, That it shall be lawful for the court to allow the district attorney to amend his statement or complaint at any stage of the proceedings, before verdict if, in the opinion of the court, such amendment will work no injustice to the accused, and if it appear to the court that the accused is unprepared to meet the charge as amended, and that an adjournment of the cause will promote the ends of justice, such adjournment shall be made till a further day to be fixed by the court.

Sec 7 And be it further enacted, That at such trial, if by jury, the United States and the accused shall each be entitled to three peremptory challenges Challenges for cause in such cases, shall be tried by the court without the aid of triers

Approved, June 11, 1864

Federal and Confederate Steamers in Europe.—The latest London papers received by Overland mail, mention that the reported engagement between the United States steamer *Kearsarge* and the rebel cruiser *Florida*, proves to be without foundation, at least so far as the *Kearsarge* is concerned, for she was off Dover at the time, and still remained there The U. S. steamer *Sacramento*, from Cherbourg, had joined the *Kearsarge* off Dover

The Southampton correspondent of the London *Daily News*, writing on the 15th, says It is almost certain that no sea fight took place off Jersey on Wednesday; the news brought by the *Wanderer* was received on board just as she was leaving Jersey There is telegraphic communication between England and Jersey, via France, and a mail packet from Jersey arrived at Wymouth last night, and there is no confirmation of the news It is said that the *Florida* was waiting off the Minquiis for the *Kearsarge* The captain of the *Wanderer* says no sign of a steamer there The two Confederate steamers supposed to be in the Channel at the present time, are the *Florida* and *Gen Lee* The *Florida* is about the size of the *Alabama* The following are armaments and tonnage of the three Federal steamers now in the Channel, viz *Kearsarge*, 8 guns, 1,031 tons, *Sacramento*, 10 guns, 1,567 tons, *Niagara*, 32 guns, 4,678 tons A letter has been received here this morning from a Captain in the English Navy, written on the 13th, at Jersey, in which there is no allusion to the sea fight off that island

The Paris correspondent of the *News* writing on July 14th, says "The Federal corvette *Sacramento* steamed out of Cherbourg harbor yesterday morning at daybreak, and it is supposed that she has a rendezvous with the *Niagara* somewhere at sea A rumor is current in Cherbourg that the Federal and Confederate naval officers have agreed to have a sea fight within the next ten days, between the *Sacramento* and the *Niagara* on the one side, and the *Gen Lee* frigate and a Confederate corvette, which was lately seen in the Straits of Gibraltar, on the other It is further said to be arranged that the battle is to come off in sight of the coast of France, and not further than fifteen miles onotres from Cherbourg"

The *Niagara* was seen cruising off Start Point, in the English Channel, on the 15th July

American Girls in Canadian Convents.—At a recent celebration in a convent of Montreal, a grand denoutment was produced by the exhibition of a *tableaux vivant* of "the Immaculate Conception" The Montreal *Witness* describes the scene, and one of its results thus

The Virgin was represented by a handsome young woman, in the attitude usual in the famous pictures of the subject Around her, and beneath her feet were numerous angels selected among the prettiest girls of the seminary The effect was splendid, much applauded, and equally gratifying to both the performers and spectators The chief part, and that most satisfactory to female vanity, that of personifying the Holy Virgin, had been received for a young American beauty, sent to the convent to learn French, and to give at a cheap rate an ornamental education The good nuns did not miscalculate as to the moral effect on the heart of the American girl of making her the chief point of attraction at a public Catholic display They boast now of her conversion

Interview of a Confederate Agent with Lord Palmerston.—The London *Morning Herald* of July 16th, says

We understand that the Hon J Mason had an unofficial interview with Lord Palmerston at Cambridge House on the introduction of Mr Landells and that the meeting was satisfactory to all parties The withdrawal of Mr Landsay's motion [that for the recognition of the South] was it is said the result of the interview —the Premier having given a sort of implied promise to support it at a more opportune moment—that is to say when Grant and Sherman has been defeated and the Confederacy stands in no need of recognition.

No Meat for the Poor.—The Richmond *Dispatch* of July 9th says:

Owing to the destruction of the different lines of railway leading to the city the regular supply of meat for the people has failed It is proposed to have the present necessities of the poor by subscriptions of money

Sickness of Grant's Army.—The army correspondent of the Philadelphia *Press* says such are constantly pouring in to swell the ranks of Grant's army, and it is quite probable that it is now larger by ten thousand than it was before the passage of the Rapidan Grant had then about 140 000 bayonets.

Degeneracy of Congress.—The New York *Tribune* has the following characterization of the present Congress,—a very humiliating but we fear too true

A very considerable portion of its members are men of quite moderate intellectual and moral stature to the duties of justices of the peace Some of them bought their nominations through There added for them perhaps fifty in all, not in cause they were really fit for legislators in the People know it It is a known fact that we do not contain so able men relatively to Congress as we did forty to sixty years ago, and our detestable system of Primary Meetings and Regular Nominations are the main cause of the falling off, though our wretched practice of re-nomination, the choice of each district Representative by the previous member in his own interest, is partly responsible for it North or Clay Webster or Calhoun, could remain in the House eight years under the prevailing system What Henry Clay will set the example of calling out a tall and upright statesman by public requisition to serve it in the next House? We ought to have Everett Sumner, Phillips, Chas. H. Carey Hamlin or Hugh Greeley, John P Kennedy, Hamilton Fish, Gerrit Smith, John P Kennedy &c, &c in that House, while no political opponents should be allowed to send to it Millard Fillmore, Charles O'Conor Judge Woodward, George M Dallas &c, &c, if they can But we shall not again have recourse to Congress until we all stand and take the shackles of locality that wholly disregard it

Sudden Death.—John Stover an old citizen of this place fell from the fourth story of the Woolen Manufacturing Company's Flour Mill about one o'clock this afternoon killing him instantly It was in the act of raising a heavy timber with a rope and tackle supposed that the bar slipped precipitating him a distance of eighty two feet on a pile of rocks Whereupon life was extinct He was a well to do citizen and leaves a family of grown children

BOILS.

WE READ THAT ONE OF

the surest afflictions that the patient Job was called upon to bear was that of boils and they have been found to be, from that time to the present the most troublesome and painful of visitors. We have known instances where individuals were sure to have these eruptions break out upon them once a month at least They show an impure state of the blood, and that humor of some kind is lurking there and the over flow of corruption is actually forced to the surface of the body, making its appearance in the form of Boils Now, is it not best at once to purify the system? Do you ask what will do this? We answer, **Scovill's Blood and Liver Syrup.** It is curing humors in every form and there is not a State in the Union where it has not accomplished the most astonishing cures REDINGTON & CO Agents, 416 and 418 Front Street San Francisco

NEW POSTAL ARRANGEMENT.—Under date of July 23d the Postoffice Department forwarded in structions regarding foreign postal regulations, and the subject was brought to our attention at the office in this city yesterday. Hereafter United States postage charge, without regard to distance, on letters addressed to or received from the British West Indies Cuba, Aspinwall Panama or any other foreign place or country, to and from which different rates of postage have not been established by international postal convention arrangement, will be 10 cents the single rate of one half ounce or under, which must be pre-paid on letters sent, and collected on letters received. Also, the United States postage charge on newspapers, and other printed matter sent to or received from the countries and places referred to will be in future as follows: two cents each on newspapers, and the established domestic rates on pamphlets, periodicals, and other articles of printed matter, which must be paid in like manner. British Columbia and Vancouver Island are included in foreign places referred to.

SOCIAL REFORMS.—That a change has at last obtained a hold upon the hitherto immutable races of Indians on the Pacific coast, can no longer be doubted; and that important social reforms appear to be effected among them must be admitted. An accomplished *clootchman* appeared on our streets yesterday accompanied by a young hopeful of whom she was no doubt the mother, and their appearance indicated that they were in quest of a boarding house, and were not easily to be suited, at that. It is the supposition, as it is known a party of aborigines recently applied at a prominent lodgings. When we have such evidences that the lordly warriors now split wood and requaws smash apples and trot the papoo, it is a sign of social progress, and a manner of the time when war weapons shall be converted into pruning hooks.

NAVIGATION.—The steamer *Julia* left yesterday proceeded to the mouth of the Willamette yesterday with apparatus for making an effort to remove some of the obstructions existing in the channel. A number of our citizens particularly interested in the improvements were on board, and the force employed, among whom were Messrs. Abernethy and C. H. Lewis, Esq., representing the interests of the ocean lines of steamers and the city.

THEATRE SCENE.—A fine scene was presented to the people of this city night before last who were standing on the street looking west, watching the progress of the fire in the woods, which seemed to be within the city limits, covering a number of the suburbs. The few trees remaining at the intersection of a line with Taylor street were blazing away from the roots up, and others of considerable height, with the dense smoke, formed a scene worth looking at. The rains of yesterday put the fires out.

SCENE OF MOUNTAIN AIR.—We met friend [illegible] yesterday and congratulated him on his fresh appearance the result of a few weeks jaunt, and camping in the mountains of the Cascade range [illegible] attested by weight, is exceedingly valuable to invalid air. The invalid lover of [illegible] who sedentary habits have made him a kind of local fixture should try and make use of a vacation in the mountains. It must be healthy for them.

SUDDEN HIT.—The fate of General Canno near Lodi is paralleled in this city yesterday, in the case of a little girl who in hiding from her companions got behind a corner of Madison and Front streets, [illegible] a dry goods box from the rear side which was set and which was by accident tipped over on her severely striking her arm. She was soon relieved and it was thought no lasting injury would result from the casualty.

REAL Yesterday the old adage that "it never rains but it pours" was strikingly illustrated in this city. The day was ushered in by rain; none of your [illegible] unexpected doubtful drizzles, but a regular old fashioned out and out rain. A wet slide seemed to have been in the machinery overhead, and it was shortly followed by gloomy drops the greater part of the day. This change of weather is very much to fish farmers, and young ducks.

A LARKY PUNCH.—A sarcastic joke was attempted to be played on a Celestial in the neighborhood of the Chinese boarding yesterday, as he was passing quietly down Stark street, seriously stopping his career, when he turned upon one of the perpetrators and dealt him a blow that brought blood, and [illegible] dispersed, calculating that was a "claret punch."

LAFAYETTE UNION SCHOOL.—Mrs. A. J. Dunn [illegible] the Lafayette Union School, has associated with her Rev. R. P. Barnell, Professor of Mathematics, natural sciences, etc., as Principal. There has been a new building erected the past season, which is in a very flourishing condition.

NEW OPERA.—We observed yesterday that the new [illegible] of Messrs. Cohn Lyon & Co., on Front street, [illegible] position. The improvement is very much noticed when contrasted with the old quarters. [illegible] expecting in a short time to show a similar contrast.

SALE COMMENCED.—The sale of furniture at auction by the Pioneer Hotel, commenced with the 3d [illegible] at 10 o'clock A. M., and continued [illegible] part of the furniture in rooms was sold. The to-day sale will be renewed, including the [illegible] of the entire lot.

SANITARY COMMISSION.—The auxiliary committee of the United States Sanitary Commission are requested to meet at the rooms of the Portland Library Association on First street, this evening, at half past seven o'clock.

MILITIA APPOINTMENTS.—Governor Gibbs has [illegible] appointed Thomas Monteith Colonel of the First Brigade 2d Brigade O. M., vice Geo. H. Belden [illegible] Fred W. Folsom, Lieut. Colonel, vice [illegible] promoted.

LADIES SANITARY AID SOCIETY.—The monthly meeting of the Ladies' Sanitary Aid Society will be held in the basement of the Baptist Church this afternoon at 2 o'clock, at which time any ladies who are willing to make articles for the State Fair can obtain material furnished. The ladies will also attend the meeting, at the same place on Tuesday afternoon of each week. The Society takes opportunity to return their thanks to the ladies for their generous response to the appeal issued.

MRS. A. C. GIBBS, Secretary.

PACKING SAND FOR THE GOVERNMENT.—As many of our Copperheads have only a faint idea of the process of sand packing we copy for their special benefit the following from the Esmeralda *Union*. The *modus operandi* is simple, though evidently not what lasonous.

A large bag filled with sand, weighing just sixty pounds is strapped upon the back of a copperhead [illegible] with the load he is made to pace backward and forward for ten hours every day with an armed [illegible] by his side. He is not permitted to stop or take a rest except for an hour at noon. The process usually sweats the disloyal blood out of their veins from three to five days when they prey to be permitted to take the oath and be discharged. After they have apparently been made loyal by this process and have exhibited signs of penitence they are generally kept at their packing arrangement for two days longer, to make assurance doubly sure.

The Detroit *Tribune* says that Michael Shoemaker ex Collector of the Port of Detroit, is on trial in that city for swindling the government. He was appointed by Buchanan.

FOR SALE

The Type and other material used in the publication of the DAILY OREGONIAN will be sold very low for cash. The material is all in good order, and will be disposed of entire, enough of it to fit out a country newspaper complete.

"A Slight Cold," Coughs.—Few are aware of the importance of checking a Cough or "SLIGHT COLD" in its first stage; that which in the beginning would yield to a mild remedy if neglected, soon attacks the lungs. *Brown's Bronchial Troches* give sure and almost immediate relief. *Military Officers and Soldiers should have them, as they can be carried in the pocket and taken as occasion requires.*

REDINGTON & Co., San Francisco Agents for the Pacific Coast.

Oregonians should test the merits of Dr. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequaled as an invigorator. In the pursuit of fortune at the mines many persons are exposed to the attacks of complaints of the digestive organs, and of various kinds of fever. It is the very article that has so long been in demand at the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health.—Sold by Druggists and dealers generally. jy20daw

Dysentery.—For Dysentery and similar complaints of the Summer season the PERUVIAN SYRUP has proved a remarkable preventive and cure. By imparting tone to the intestinal mucous membrane it places the surface in the best possible condition to resist the irritation of crude and indigestible articles of food.

Periodical Headache, so common in unclean and marshy countries, the Douloureux, that most painful affection of the nerves of the face, are often only attacks of ague in disguise—proceeding from the same noxious influence. Jaundice Dyspepsia and Diarrhœa, are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy, often result from the same miasmal cause. For such, Dr. Osgood's India Cholagogue is an unfailing remedy. By striking at the root of those affections, it applies with equal certainty as for the cure of Fever and Ague in its simplest forms.

Imitations are abroad. Be particular to enquire for *Dr. Osgood's Indian Cholagogue*, sold everywhere. Sole Agents for the Pacific Coast.

HOSTETTER'S
CELEBRATED
STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE REMEDY upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its cool and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken-down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthy invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits without enfeebling the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters.

As an invigorant and restorative, Immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females,

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility, and all peculiar disturbances and derangements to which as a sex they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

Resolutions of the Union National Convention.

ADOPTED AT BALTIMORE, JUNE 8 1864

1 *Resolved*, That it is the highest duty of every American citizen to maintain against all their enemies, the integrity of the Union and the paramount authority of the Constitution and laws of the United States, and that, laying aside all differences and political opinions, we pledge ourselves, as Union men, animated by a common object, to do every thing in our power to aid the Government in quelling, by force of arms the rebellion now raging against its authority, and in bringing to the punishment due to their crimes the rebels and traitors armed against it.

2 *Resolved*, That we deem it essential to the general welfare that harmony should prevail in the National councils, and we regard as worthy of official trust those only who cordially indorse the principles proclaimed in these resolutions, and which should characterize the administration of the Government.

7 *Resolved*, That the Government owes to all men employed in its armies, without regard to distinction of color, the full protection of the laws of war, and that any violation of these laws, or the usages of civilized nations in time of war, by the rebels now in arms, should be made the subject of prompt and full redress

8 *Resolved*, That foreign emigration, which in the past has added much to the wealth, development of resources and increase of power to this nation, the asylum of the oppressed of all nations, should be fostered and encouraged by a liberal and just policy

9 *Resolved*, That we are in favor of the speedy construction of a railroad to the Pacific.

10 *Resolved* That the national faith, pledged for the redemption of the public debt must be kept inviolate, and for this purpose we recommend economy and rigid responsibility in the public expenditures, and a vigorous and just system of taxation, that it the duty of every loyal State to sustain the credit and promote the use of the national currency.

Resolved, That we approve the position taken by the Government, that the people of the United States can never regard with indifference the attempt of any European power to overthrow by force and fraud, the institutions of any Republican Government on the Western Continent, and will view with extreme jealousy, as menacing the peace and independence of their own country, the efforts of any such power to obtain new footholds for monarchical governments, sustained by foreign military force in near proximity of the United States

Oregon State Sanitary Fair.

To the Citizens of Oregon

It is proposed to hold a Sanitary Fair at Salem, during the State Fair commencing on the 27th of September next in view of the urgent necessity of the Sanitary Cause and the briefness of the time allowed to make preparations, it was deemed best that every friend of humanity, and every true Union loving country residing in Oregon, will respond to the call.

We can say to those at a distance, that ample room and shelter will be provided for all their contributions

We suggest as these committees we propose that some within reach attend to all such we would say, procure a central site and about the twelve sections of country where committees have been appointed individuals will please meet themselves and come to the fair, and see that their donations are on hand so that no section of country will be unrepresented.

Oregon has heretofore responded nobly to these calls of humanity and now is no time to fail or falter, while every telegram brings the sad news of brave men fallen, and the work of carnage and death still going on, shall we, while peace and plenty fails to our lot, forget our bleeding country?

To the Ladies of Oregon we most especially plead, know well that if we have their united support, success crown our efforts From every woman in the State we ask some article of handiwork Every description of ornamental work which busy fingered ingenuity can frame; a long list of knitting from a pair of socks to the most delicate shawl In needle work, from the baby's bib to the finest dress, in clothing, for men women and children, let the variety be so complete that no want may be unsupplied Every article of female handiwork that will bring enough to pay for time and material

To the farmers, we look for help let your offerings be as generous as your hearts, and in kitchen will be one important feature of the Fair nothing will be amiss, whether from the products of the soil your dairy or your cattle From the merchant and manufacturer, silver and business men, let us have a small sample of his wares, or the work of his hands so that our young State may be fully represented in all her growing wealth and greatness

The County Committees, whose names are below, are requested to solicit and receive contributions, and arrange for their being forwarded to Salem at the proper time It is desired that the County Committees should appoint subcommittees to aid them in their work, each member or committee recollecting if they cannot act themselves to endeavor to procure substitutes, so that there may be neither neglect nor delay in making the necessary arrangements.

All organized Sanitary Aid Societies are invited to give this matter their especial attention.

School Beth Israel.

THE SCHOOL BETH ISRAEL WILL OPEN ON Wednesday the 14th inst under the charge of Mr and Mrs. J G DEARDORFF, late of the Portland Academy and Female Seminary

The Managers of the School are happy to say that with the aid of the above named well tried and excellent teachers they will now be able to make this School one of deserved interest and approval on the part of the community at large and the large number of friends who have hitherto so warmly supported their efforts in making this an establishment to which parents could with confidence send their children for instruction

The Course of Studies will embrace branches of more importance and advanced degree than before—the studies consisting in part as in the new system of the Theories of English Literature—Composition Grammar and Arithmetic, in their higher branches—Geography &c

The SCHOOL HOUSE on the corner of Sixth and Oak streets also recommends itself by its airy and comfortable rooms and the eligibility of its location—and in offering this Card to the notice of the community the management conclude by promising that their object in the future as in the past, shall be not only to impart but to inculcate and attention will be given to not only the intellectual but the moral and physical development of the pupils

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCovery of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr Henry Anders a physician and chemist of New York, after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent This considered impossible by the scientific world, is attested by certificates of its chemists from Dr J R Chilton of this city and Prof Booth U S Mint, Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and it is now recommended to practitioners (see "American Medical Monthly," July 6, 1858, page 70)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption, Cancer, Heart Liver and Kidney Diseases Rheumatism, Neuralgia, Nervous Affections Dyspepsia, Bronchitis, etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body in the result of the employment of Iodine. The patient recovers flesh, strength and color, hitherto pale, relaxed and feeble, he becomes full strong and florid
